LAND

► May 2022

A new XXL-sized speculative warehouse project now under construction at Normandy Bridge Logistics Park 2 (PLPN2) in Le Havre

**The Panhard property development group and Goldman Sachs Asset Management** started construction for a 100,000 sq. m.-plus warehouse at PLPN2 on Le Havre port land in early March, on a speculative basis (without advance secured tenancies).

Construction of this XXL-sized logistics facility was initiated in March 2022 following 15 months of preparatory work by HAROPA PORT. Delivery of the site – which is aiming at BREEAM Very Good\* certification – is scheduled for the summer of 2023.

\*BREEAM: "Building Research Establishment Environmental Assessment Method" a UK construction industry environmental certificate.

**A new, latest-generation logistics offering at scale**

- 12 storage areas sized from 6,000 to 12,000 sq. m.
- 4,000 sq. m. of office space split into 4 packages.
- 6,000 sq. m. of storage space for containers.

This new facility, which is additional to the 48,000 sq. m. of warehouse space already built on the site by the Panhard Group in 2019, will mark the completion of the development programme at PLPN2.

► February 2022

**BAE SERVICE opens a new branch: a further addition to the customs service offering in Rouen**

Customs service provider BAE SERVICE, opened a branch in Rouen at the end of 2021, enabling it to enhance its market presence and proximity to local freight forwarders and consolidators.

►► Backed by its 4 branch offices and 24 customs clearance facilities in France and in Europe, the goal of BAE SERVICE is to become a major player in customs brokerage in France.

**BAE SERVICE: the advantages of an exclusive customs service provider**

- Just one activity: managing customs clearance formalities.
- Expertise in customs solutions for imports & exports.
- A business independent of haulage companies.
- Total neutrality vis-à-vis its customers.

**BAE SERVICE**

"Our development strategy involves our offering a local service - in Rouen in the present instance - for greater proximity to our customers and in-depth knowledge of how the main customs clearance facilities operate. We are completely neutral and independent, responding to all types of requests, always endeavouring to adapt to our partners' requirements while at the same time adhering to the regulations."

CElman Renault, General Manager BAE SERVICE

"The arrival of this new player will facilitate the customs procedures of HAROPA PORT's customers with total transparency by simplifying their use of maritime transportation solutions for imports and exports in Rouen. This differentiated offering supplements the services proposed by expedition and forwarding agents at the port, making it possible to offer major importers and exporters comprehensive, end-to-end logistic solutions."
