

Containers et containers-reefers

With its 3 million containers handled, HAROPA PORT is the leading maritime and river port in France and the 5th largest container port in North Europe.

Published on 25 January 2019

HAROPA PORT: AN EXCEPTIONAL GEOGRAPHICAL LOCATION:

- › Located at the entrance to Europe's north-western range,
- › 1st North European port reached by imports and the last by exports,
- › Maritime gateway to the Paris region,
- › 1st French consumer market and 2nd in Europe,
- › Roissy Charles De Gaulle airport, Europe's leading freight airport,
- › Rungis International Market, the world's leading fresh produce market.

HAROPA PORT'S ASSETS !

- › 1st French port complex and 5th North European port for containers,
- › Advantageous transit-times for imports and exports on most maritime services
- › New York in 8 days!

□

- › Fully private, non-congested container terminals,
- › Reliability of ISO 9001-certified port services, a guarantee of efficiency

□

Infrastructure adapted to the largest container ships and an end-to-end container service offer:

- › Deep-water port infrastructure: accessibility 24/7 and 365 days a year,
- › Capacity to receive container ships over 20,000 TEUs at full load,
- › Reception port for giant container ships: more than 350 stop-overs per year,
- › 10 maritime container terminals with a natural link to the 3 inland waterway container terminals in Ile-de-France,
- › Continuity of service on the Seine Axis, from Le Havre to Rouen to the Portes de Paris,
- › ISPS-certified facilities (Le Havre and Rouen),
- › ISO 28000 certification (security management, Le Havre),
- › 1 Cargo Community System common to all terminals on the Seine axis.

HAROPA PORT, A TOP-TIER MARITIME OFFER

- › 1st North European port reached by imports and the last by exports,
- › Capacity for handling giant container ships,
- › One of the only deep-water ports in Europe (at 17m).
