

HAROPA PORT | Rouen

A major player in the development and protection of the Seine estuary, HAROPA PORT | Rouen, the leading Western European cereal exporting port, receives 3,000 vessels and 6,000 river convoys each year, generating traffic of 27 to 30 million tonnes. At the heart of the HAROPA PORT complex, Rouen bases its uniqueness on its ability to handle all types of traffic, particularly industrial, thanks to the know-how of its operators and the diversity of its terminals, which range from Honfleur to the Rouen Normandy Metropolis.
